

SEPARATING PEOPLE FROM HAZARDS

Access & Maintenance Platforms

OSHA Compliant

Our industry experts ensure your maintenance platforms meets the latest local and national safety regulations.

Increased Productivity

With our access platforms, your personnel will be able to work unencumbered by additional safety equipment.

Affordable

In most cases, we can develop a solution from our existing platform library saving you time and money.

Custom Solutions

Modular components provides flexibility to design structures that meet specific requirements.

Maintenance Free

Platforms are long-lasting and available in corrosion-resistant galvanized or aluminum.

Rapid Delivery

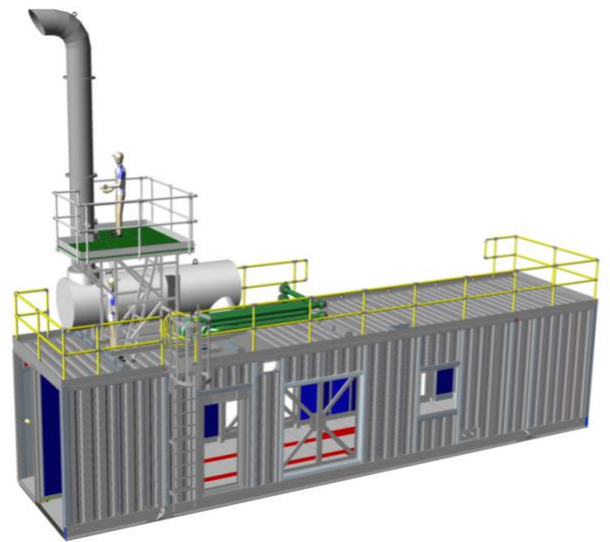

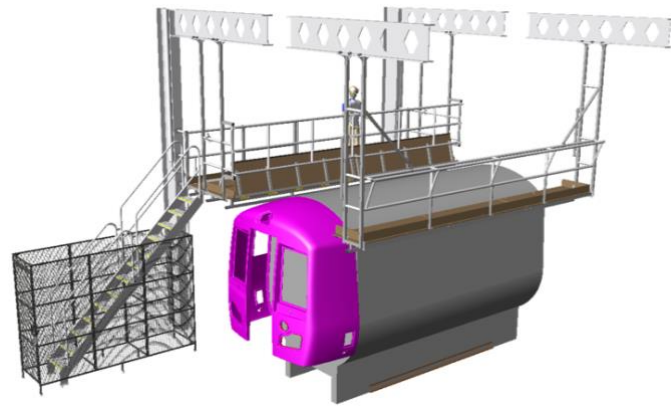

Fully pre-built systems in modular sections or partially assembled and palatized.

Purpose-Built Systems

Our platforms and work stands solve a wide range of access & maintenance needs within various environments and industries.

Solutions can be as simple as a pre-engineered stock platform to a full phase style maintenance platform designed for complete 360-degree access and coverage offering convenience and easy maneuverability.

Designed for any task, whether it's on top of an aircraft around a railcar or quick mobile access to a hard-to-reach area.

Access & Maintenance Made Easy

Our platforms are OSHA/ANSI/CSA compliant and suitable for hard to access areas such as elevated machinery, shelved warehouse inventory, tall vehicles, construction, or any application requiring a protected elevated work surface with railing. Our full range of access platforms and work stands are offered as either permanent fixed structures or with wheels so they can be deployed where needed.

Step & Cross-over Platforms

Provides safe access over obstructions such as pipework and equipment and between different levels such as on rooftops & industrial environments

Elevated Access Platforms

Our team has designed a range of mezzanine and catwalk systems to provide safe and secure work at height in all types of indoor/outdoor environments.

Machine/Equipment Platforms

Wraparound work platforms and permanent structures to assist in safe operation and maintenance of shop floor equipment that is mounted and used at height.

Vehicle Maintenance

Maintenance stands that are designed to access specific areas and help workers perform specific jobs.

Multi-Person Access

Provide work crews with stable wraparound solutions to perform safe work at height for a variety of routine tasks.

Single-User Access

These modular, lightweight mobile systems are highly configurable and suit a wide range of needs.

Fixed Platforms

Configured using modular components to meet specific site requirements.
